EDUCATION

PUNJAB ENGINEERING COLLEGE CHANDIGARH, INDIA

- B.TECH IN COMPUTER SCIENCE (ARTIFICIAL INTELLIGENCE) (CGPA-7.2)
  Expected- May 2027

RYAN INTERNATIONAL SCHOOL LUDHIANA, INDIA

- Class 12, 2023 (93.4%) | Class 10,2021 (93.6%)

SKILLS

Finance & Analytics: Financial Modelling (DCF), Ratio & Spend Analysis, Market & Business Analysis
Data & AI: Python, SQL, Machine Learning (Regression), LLMs, Retrieval-Augmented Generation (RAG)
Tools & Platforms: Excel (Advanced), Power BI, n8n (AI Automation), Pinecone, Google Cloud

EXPERIENCES

AI INNOVATOR INTERN
The Future University | Jan 2026 – Present

- Own the analysis/research module end-to-end built from scratch and solely responsible for prompt design, validation, and output quality across a platform covering **5,000+ stocks**
- Engineered and tested **100+ prompts** across **8–10** AI models, benchmarking platform performance against competing AI tools in the market to continuously sharpen output quality
- Built Python-based AI agents that autonomously fetch and store real-time news data directly into the database, and deployed **10+ n8n** automations that compressed a **day of manual work into under 1 hour**
- Built the product's entire funnel and user journey data from scratch, directly informing roadmap and product decisions at the founding team level.

PROJECTS

Verdict — Institutional Research Intelligence Platform: ***(Antigravity, Claude , n8n)***

- Built an AI-enabled platform to automate listed company analysis, combining **15+** investment banking and consulting frameworks and reducing research time by **~85% (≈40 hrs → <10 mins)**
- Combined 5-year financial modelling with structured diagnostics **(DuPont, stress testing, Five Forces, Full Potential Gap)** to identify margin pressure and evaluate the sustainability of revenue growth
- Used structured reasoning pipelines to translate financial and competitive insights into **IC-style** recommendations across three levers- **pricing, cost reset, and portfolio shift,** quantifying margin sensitivity and execution trade-offs under multiple scenarios

Financial & Valuation Analysis – Food Delivery Sector: ***(Excel, PowerPoint, Python)***

- Conducted a **valuation & growth strategy analysis** for a leading player, supported by **AI-assisted research** across **1,200+ industry documents**, reducing insight extraction time by 90%
- Performed **DCF valuation** (Estimated enterprise value of **₹72k Cr**) and benchmarked against **₹2.9 Lakh Cr** market cap, identifying valuation premium driven by **quick-commerce economics**.
- Executed competitor benchmarking, **SWOT**, and scenario analysis, recommending a balanced growth strategy with margin optimization and deeper high-frequency category expansion.

CERTIFICATIONS

- **Data Analyst Bootcamp** – SQL, Python, Power BI, EDA, Statistics (Krish Naik, Udemy)
- **Complete Investment Banking Course** – M&A, IPOs, Valuation (Udemy)
- **AI Technology** – Prompt Engineering and LLM Applications

LEADERSHIP & POSITIONS OF RESPONSIBILITY

Joint Placement Head – Career Development & Guidance Cell, PEC:

- Driving **outreach and industry/alumni networking** to expand internship and placement opportunities
- Managing **placement data and insights for 800+ students**, building Excel and Power BI dashboards to support planning and outreach

Management Head – NASA HERC Team PEC:

- **Raised ₹20 Lakhs** in funding for PEC's Mars Rover Project under the **NASA Human Exploration Rover Challenge**
- Strategic planning, sponsor outreach, and cross-department collaboration for national-level project execution

Leadership & Technical Engagement – Punjab Engineering College

- **Executive Member, Robotics Society:** Orchestrated 3+ robotics competitions and AI sessions (100+ participants); mentored 15+ juniors in robotics, AI strategy, and project execution.
- **Coordinator, Technical & Cultural Events:** Managed 8+ college events and 5+ technical workshops (200+ attendees), applying strong team management and communication skills for successful execution
